

***JR*T REGENERATION THERAPY**

***JR*T**

***JR*T**

- Is a safe, effective, natural, non-surgical, joint repairing therapy
- It is an anti-inflammatory, tissue restorative, oxygen-ozone, homeopathic injection technique designed for the treatment of acute and chronic musculoskeletal pain

***JR*T**

- Is excellent for all forms of joint and musculoskeletal pain, including chronic neck and back pain, degenerated discs, rotator cuff injuries, degenerative, arthritic hips and knees, as well as shoulder, elbow, wrist, and ankle pain

***JR*T**

- Corrects the underlying pathology of the disorder, thus there is a 75% chance for the chronic pain sufferer to becoming permanently pain free

***JR*T**

- Stimulates the body's natural mechanisms for healing
- Promotes the growth of new connective tissue that strengthens weakened joint cartilage, ligaments, and tendons, and stabilizes chronically injured joints

***JR*T**

- Treats any joint in the body, and can restore joint integrity and relieve pain
- Can help relieve pain from disc problems, low back pain, sciatica, shoulder pain, elbow pain, hip pain, knee pain, such as osteoarthritis or meniscus damage, wrist pain, and ankle pain

***JR*T**

- Promotes the repair and tightening of lax (loose) joint structures, partially torn connective tissue, cartilage, ligaments and tendons
- Stops the inflammation & pain cycle
- Allows for development of a healing environment within the joint, and ultimately results in increased range of motion, and decreased inflammation and pain
